

Md. Hasanur Rahman

Software Engineer

Experienced C++ , Python programmer and
Machine learning, Deep learning enthusiast

Contact

E-mail

hasanurrahman690@gmail.com

WWW

hasanur-rahman.github.io

Skills

Languages: C++, Python, Java, Swift, Objective-C

WebDev: HTML, JS

Others: Linux, Git

Extra-Curricular

- Runners-up , Tedhack Hackathon, 2018
- Participated NCPC, ICPC programming contest
- Expert, Codeforces

Work History

2019-05 -
Current

Software Engineer

Samsung

Implementing the backend features with SQL database using C++ and iOS swift

Education

2015-02 -
2019-04

Bachelor of Science: Computer Science

Bangladesh Uni. Of Engineering And Technology

CGPA: 3.22/4.00

Research

Worked under Dr. Mohammad Kaykobad for optimizing time complexity of finding Minimum Spanning Tree

Projects

- Oct'17 Ecommerce App with MySQL
- Sep'18 Disease Prediction BOT
- May'20 Movie Recommender system with Collaborative Filtering
- Aug'20 Planar Data Classification with NN

Certifications

2020-08

Neural Networks and Deep Learning, Coursera

2019-12

Git: Branches, Merges and Remotes, LinkedIn
